Backend : ASP.NET Web Forms, ASP.NET MVC 5, ASP.NET Web API, ASP.NET Core Web API, Entity Framework, Entity Framework Core, ADO.NET, LINQ, Dependency Injection, JWT Authentication, RESTful Web Services, SOAP Web Services

Frontend : HTML5, CSS3, JavaScript, jQuery, AJAX, Bootstrap, AngularJS, Angular 21

Database : Microsoft SQL Server, T-SQL, Stored Procedures, Views, Functions, Triggers, Query Optimization, SQL Server Agent

Deployment & Infrastructure : IIS Deployment & Hosting, Windows Services

Tools & Services : Visual Studio, Visual Studio Code, Git, GitHub, SVN, Postman, Swagger (OpenAPI)

Development Methodologies : SDLC, Agile (Scrum)

WORK EXPERIENCE

Cogent Innovations Pvt Ltd: Chennai, TN	Jan - 2024 to Apr - 2026
Senior Software Developer	
Cogent Innovations Pvt Ltd: Chennai, TN	Sep - 2022 to Nov - 2023
Software Engineer	

PROFESSIONAL EXPERIENCE

Merchant Management System | SBI & AXIS (Asp .net webforms) Jan - 2024 to Apr - 2026

- Developed and maintained **Merchant Management System (MMS) used by SBI and AXIS Bank** to manage merchant acquisition and onboarding processes.
- Developed ASP.NET Web Forms applications using 3-Tier Architecture (DAL, BLL, Presentation Layer) with C#, JavaScript, jQuery, and SQL Server for merchant and payment device management
- Developed WCF RESTful API services for merchant onboarding and payment terminal installation/activation integrated with payment aggregators including PhonePe , BharatPe , Paytm, OMA Emirates, and Easebuzz.
- Integrated secure third-party APIs using SSL/TLS to enable seamless data exchange with external systems including EPH (Electronic Payment Hub) and TMS (Terminal Management System).
- Developed Windows Services for automated background processing.

- Implemented Excel-based bulk merchant onboarding with file parsing, validation, and automated error reporting.
- Developed SQL Server database objects (stored procedures, views, functions, triggers), SQL Agent jobs, and Database Mail automation for the Merchant Management System.
- Developed SOAP-based APIs to support integration with the Android Engineer Application.

Attendance And Payroll Management System (Asp .net With Angular JS) Sep -2022 to Nov-2023

- Developed and maintained an **ASP.NET MVC–based Attendance and Payroll Management System** supporting employee attendance tracking, leave management, payroll processing, and canteen billing
- Developed and maintained a **desktop synchronization application** to transfer attendance logs from the eTimeTrackLite MS Access database to SQL Server
- **Implemented automated data export and FTP integration** by generating client-specified files through a desktop application and scheduling transfers using Windows Task Scheduler
- Designed attendance and payroll reports using **SAP Crystal Reports** for employee attendance analysis and payroll reporting.

DEPLOYMENT & INFRASTRUCTURE

- Deployed and hosted ASP.NET applications on Windows Server using IIS; managed application pools, bindings, and environment configuration..
- Created and configured Windows Services for long-running background jobs and scheduled task automation.

EDUCATION

Bachelor of Engineering – Mechanical
Anna University, Tamil Nadu

2015 – 2019
